

BYOD AGREEMENT

Each student and their caregivers are required to read and sign this agreement indicating their understanding of the conditions by which students are permitted to Bring Their Own Device to school.

I want my child to bring his/her own digital device to school for use in the classroom learning programme. I **understand (please tick each statement):**

- The schools preferred digital device is either a **chromebook, netbook or laptop** that is able to access Google Apps For Education.
- Security measures for safe storage are provided, but ultimately the device is the responsibility of the owner. The school cannot be held responsible for loss or damage to the device. It is recommended that replacement insurance be purchased for all devices.
- Teachers will provide a locked cupboard in which students may store their device when not in use.
- Students should bring their device fully charged each day. Power for charging is not always available.
- Personal internet connected devices e.g. Cell phones, t-sticks, vodem sticks will not be permitted to be used to access outside internet sources at any time at school.
- Devices brought to school are for the owner's personal use. Any sharing is at the owner's discretion and it is understood that the owner of the device is still "in charge" of their device and the school will not take responsibility should any damage occur.
- Teachers will encourage the use of devices whenever appropriate and students will be encouraged to use them for homestudy and personal learning. Students will continue to use pen and paper as part of their learning.
- Students will use cloud based applications such as Google Apps For Education.
- The school retains the right to search and/or confiscate any device we believe is likely to detrimentally harm others or affect the learning environment.
- School policies and procedures relating to the use of devices (eg Safe Use of the Internet) will apply to student owned devices while in use at school.
- Students must comply with teachers' requests to shut down or close screen.
- Devices must be in silent mode and put away when asked by teachers.
- Students agree not to play games on their device while at school, unless given permission to do so by their teacher
- The school's Wi-Fi network filters will be applied to the internet and any attempt by students to bypass these will be a breach of the "Safe Use of the Internet Agreement".
- The repair of any malfunctioning/damaged devices is the owner's responsibility; Greenmeadows Intermediate School does not supply technical services for student owned devices.

I agree to these conditions.
